

www.zootots.co.uk – funky things for funky kids!

Press release - June 2007

zoo tots is on a mission to bring the chuckle back to little cheeks and their bright clothes, shoes, toys, books, cards, gifts and furnishings in primary colours and natural materials help make chirpy children and cheery mums and dads.

“Following the birth of our daughter we found it difficult to find original stuff for this new little person and all her little friends, (and we weren’t the only ones), so we went looking for funky products which would stand the tot-test. From the hazy baby days of several clothing changes (per hour) through to toddle-time and beyond, **zoo tots** hope to provide interesting, exciting, challenging, sometimes noisy but always well-made things that will work for you and your children” says Lisa Buckingham, zoo tots founder and mother of sixteen month old Holly.

Many of the items in stock have been designed and produced by other parents who share their vision to provide all that is funky yet functional for babies and young kids. The wide range, currently sold via the website www.zootots.co.uk, is aimed mainly at those aged 0-5 and includes *Jump kids, Urban Urchin, Lizzie Shirt, Starchild, Bob and Blossom, Brights and Stripes, Woody Click and Priddy books*.

Fresh designs and different brands will be arriving at the store throughout the year and **zoo tots** are always on the lookout for new ideas and forward-thinking suppliers who share their values, so keep an eye on the site for the ever-changing stock of magical products.

zoo tots also offer a gift service where they will arrange for individual items or their specially selected gift sets to be delivered directly to a chosen recipient all beautifully packaged in their luxury wrapping.

“We aim to make it easy as possible for busy parents to send original new baby, birthday and other special occasion gifts to all their children’s little friends” says Buckingham.
